Programme

SUSTAINABLE DEVELOPMENT FORUM NAGALAND

YOUTH ACTION FOR RURAL DEVELOPMENT

Empowered lives.
Resilient nations.

Purpose

IHCAP has commissioned the following two studies for analysis of SAPCCs from IHR

- Comparative analysis of SAPCCs from Indian Himalayan Region
- Understanding the linkages: SAPCCs and NMSHE

IHCAP intends to leverage the SMDS 2013 event to generate feedback on draft studies.

A lead presentation will be made by IHCAP representative on the draft studies. The presentation will be followed by an open discussion. It is expected that these discussions will provide points for:

- identifying key priority action in sectors vulnerable to climate change like agriculture and water
- highlight need and direction for further strengthening of SAPCCs
- increased understanding on implementation mechanism of the SAPCCs in the IHR

10:30 - 13.30, 27 SEPTEMBER, 2013, NBCC CONVENTION CENTRE, KOHIMA, NAGALAND

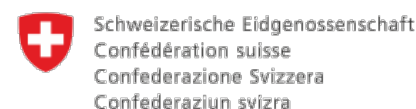

About IHCAP

Indian Himalayas Climate Adaptation Programme (IHCAP) is a project under Global Programme Climate Change (GPCC) of the Swiss Agency for Development and Cooperation (SDC). In India it is anchored under the Framework of Science and Technology Agreement of November 2003 between the Swiss Federal Council and the Government of India and is being implemented as a bilateral cooperation programme with Department of Science & Technology. The IHCAP builds on capacity and knowledge enhancement related to three pillars:

- a. scientific and technical knowledge cooperation between Indian and Swiss scientific institutions;
- b. adaptation measures for vulnerable communities; and
- c. mainstreaming adaptation policies for improved action in the Indian Himalayan Region.

About UNDP

The United Nations Development Programme (UNDP) supports Government of India in meeting national development objectives along with commitments under important multilateral environment agreements. UNDP under its institutional capacity building programme with MoEF is working with State governments to support preparation and implementation of state action plan on climate change. In partnership with MoEF, UNDP has worked towards development of a Common Framework that serves as a guide to States preparing their respective climate change action plans.

IHCAP Indian Himalayas
Climate Adaptation
Programme

Empowered lives.
Resilient nations.

Objective

To provide platform for Himalayan states to share experiences and knowledge on climate change adaptation planning and implementation.

Organized under the aegis of SMDS III

Jointly supported by:
Indian Himalayas
Climate Adaptation
Programme (IHCAP) &
UNDP India.
